

NATIONAL MARINE SANCTUARY FOUNDATION Junior Front-End Developer – JOB ANNOUNCEMENT

Location: Office of National Marine Sanctuaries, Silver Spring MD

Supervisor: Vice President

The National Marine Sanctuary Foundation (Foundation) – a private, non-profit organization dedicated to strengthening and promoting U.S. national marine sanctuaries -- is seeking a Junior Front-End Developer who will work within the Office of National Marine Sanctuaries to design, develop and implement websites. Successful applicant will play a key role in supporting the Office of National Marine Sanctuaries (ONMS) by administering headquarters level web development for the National Marine Sanctuaries and ONMS on behalf of the Foundation.

Position Overview

Successful candidate will provide support by working with the ONMS web team to design, develop, test and implement websites for the National Marine Sanctuary System.

Responsibilities:

- Provide maintenance support and resolve technical issues related to ONMS websites.
- Migrating content to Bootstrap-based templates.
- Archiving of ONMS website content and documenting process for archiving.
- Ensure ONMS websites follow NOAA, DOC and OMB requirements.
- Ensure videos are web optimized and captioned
- Make recommendations for better User Experience based on sound reasoning and best practices
- Analyze and solve problems related to company websites and digital properties
- Assist in special projects for the Education and Outreach Division as needed.
- Occasional administrative tasks such as tracking property.

Qualifications:

- Bachelor's Degree from an accredited four-year college or university in web development or graphics design.
- 1-2 years of web design and development experience preferred
- Understanding of Section 508 accessibility requirements and how to apply them to web pages.
- Experience building responsive design web pages.
- Strong organizational skills and attention to detail.
- Ability to show initiative, multi-task, prioritize, and meet deadlines.
- A critical eye for design and usability

Additional Technical Requirements:

The candidate must demonstrate familiarity with the following web development technology:

- Understanding of HTML5, CSS3, and JavaScript
- Understanding of basic UX principles and what makes a great user experience
- Experience with version control and deployment using Git
- Some experience with Wordpress a plus
- Some experience with .NET (VB.Net, C#) a plus
- Some experience Microsoft Azure Web Services
- Must be comfortable asking questions to ensure understanding of requirements, problems, goals, etc. of projects
- Maintain and improve personal skill set and knowledge base

Reporting: The position will be based in the Office of National Marine Sanctuaries in Silver Spring, MD. The Junior Front-End Developer will coordinate day to day activities with Web & New Media Coordinator in ONMS.

Compensation and Benefits: Salary \$42,000 - \$50,000 with benefits. The Foundation offers a competitive benefits package that includes health and dental insurance, life insurance, and a retirement savings plan.

Start Date: As soon as possible

To apply: Applications should include a cover letter, resume, list of references and several writing samples to applicants@marinesanctuary.org. Please be sure to put Junior Front-End Developer in the subject line. Applications received prior to September 7, 2018 will be preferred.

The Foundation is an equal opportunity employer and actively works to insure fair and equal treatment of its employees.

About the National Marine Sanctuary Foundation (Foundation): The Foundation connects people to the underwater places that define the American ocean—national marine sanctuaries. The Foundation is the private, non-profit partner to the federally managed National Marine Sanctuary System. The Foundation is dedicated to protecting and supporting national marine sanctuaries through advocacy, education, public awareness, and conservation. More information can be found on our website at www.marinesanctuary.org.
